DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 is drawn to and immunoassay method classified in class 435, subclass 7.1.

Group II, claim(s) 10 is drawn to an HM1.24 antigen protein, classified in class 530, subclass 350.

Group III, claim(s) 11 is drawn to a fusion protein classified in class 435, subclass 69.7.

Group IV, claim(s) 12 is drawn to a DNA sequence classified in class 514, subclass 44.

2. The inventions listed as Groups I, II, III and IV, do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Sequence ID No. 1 is assumed to be the special technical feature used in groups I-IV, however, sequence ID No. 1 is anticipated by US Patent 5,914,252, therefore there is no special technical feature and a lack of unity is present between these groups.

3. A telephone call was made to Harold C. Wegner on August 16, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
